CHELMSFORD HOCKEY CLUB. CCTV POLICY

Chelmsford Hockey Club uses closed circuit television (CCTV) images to provide a safe and secure environment for members, their guests and visitors to the Club's business premises, and to protect the Club's property.

This policy sets out the use and management of the CCTV equipment and images in compliance with the Data Protection Act 1998 and the Information Commissioner's Office CCTV Code of Practice.

The Club's CCTV facility records both images and audio recording.

PURPOSES OF CCTV

The purposes of the Club installing and using CCTV systems include to:

- assist in the prevention or detection of crime or equivalent malpractice;
- assist in the identification and prosecution of offenders;
- monitor the security of the Club's business premises;
- ensure that health and safety rules and Club procedures are being complied with; and
- assist with the identification of unauthorised actions or unsafe working practices that might result in disciplinary proceedings being instituted against members and to help in providing relevant evidence.

LOCATION OF CAMERAS

Cameras are located at strategic points throughout the Club's business premises, principally in the Changing Room building and Pitchside Café areas. The Club has positioned the cameras so that they only cover communal or public areas on the Club's business premises and they have been sited so that they provide clear images. No camera focuses, or will focus, on toilets, shower facilities or private offices. All cameras are also clearly visible.

Appropriate signs are prominently and clearly displayed so that members, their guests and visitors are aware they are entering an area covered by CCTV.

RECORDING AND RETENTION OF IMAGES

Images produced by the CCTV equipment are as clear as possible so that they are effective for the purposes for which they are intended. Maintenance checks of the equipment are undertaken on a regular basis to ensure it is working properly and that the media is producing high quality images.

Images may be recorded either in constant real-time (24 hours a day throughout the year), or only at certain times, as the needs of the business dictate.

As the recording system records digital images, any CCTV images that are held on the hard drive of a PC or server are deleted and overwritten on a recycling basis and, in any event, are not held for more than thirty days. Once a hard drive has reached the end of its use, it will be erased prior to disposal. Images that are stored on, or transferred on to, removable media such as CDs or memory cards are erased or destroyed once the purpose of the recording is no longer relevant. In normal circumstances, this will be a period of one month. However, where a law enforcement agency is investigating a crime, images may need to be retained for a longer period.

ACCESS TO AND DISCLOSURE OF IMAGES

Access to, and disclosure of, images recorded on CCTV is restricted. This ensures that the rights of individuals are retained. Images can only be disclosed in accordance with the purposes for which they were originally collected.

The images that are filmed are recorded centrally and held in a secure location. Access to recorded images is restricted to the operators of the CCTV system and to those club officers who are authorised to view them in accordance with the purposes of the system. If media on which images are recorded are removed for viewing purposes, this will be documented.

Disclosure of images to other third parties will only be made in accordance with the purposes for which the system is used and will be limited to:

- the police and other law enforcement agencies, where the images recorded could assist in the prevention or detection of a crime or the identification and prosecution of an offender or the identification of a victim or witness;
- prosecution agencies, such as the Crown Prosecution Service;
- relevant legal representatives;
- club officers involved with Club disciplinary processes; and
- individuals whose images have been recorded and retained (unless disclosure would prejudice the prevention or detection of crime or the apprehension or prosecution of offenders).

The Management Committee of the hockey club are the only people who are permitted to authorise disclosure of information to external third parties such as law enforcement agencies.

All requests for disclosure and access to images will be documented, including the date of the disclosure, to whom the images have been provided and the reasons why they are required. If disclosure is denied, the reason will be recorded. Formal requests must be submitted in writing to the club Secretary.

INDIVIDUALS' ACCESS RIGHTS

Under the Data Protection Act 1998, individuals have the right on request to receive a copy of the personal data that the Club holds about them, including CCTV images if they are recognisable from the image.

If you wish to access any of your CCTV images, you must make a written request to the club Secretary. The Management Committee reserves the right to charge you a fee of up to £10 for the supply of the images requested. Your request must include the date and time when the images were recorded and the location of the particular CCTV camera, so that the images can be located and your identity can be established as the person in the images.

Note: The Club will always check the identity of the person making the request before processing it.

The Management Committee of the hockey club will first determine whether disclosure of your images will reveal third party information as you have no right to access CCTV images relating to other people. In this case, the images of third parties may need to be obscured if it would otherwise involve an unfair intrusion into their privacy.

If the Club is unable to comply with your request because access could prejudice the prevention or detection

of crime or the apprehension or prosecution of offenders, you will be advised accordingly.

COVERT RECORDING

The Club will only undertake covert recording with the written authorisation of the management committee where there is good cause to suspect that criminal activity or equivalent malpractice is taking, or is about to take, place and informing the individuals concerned that the recording is taking place would seriously prejudice its prevention or detection. Covert monitoring may include both video and audio recording.

Covert monitoring will only take place for a limited and reasonable amount of time consistent with the objective of assisting in the prevention and detection of particular suspected criminal activity or equivalent malpractice. Once the specific investigation has been completed, covert monitoring will cease.

Information obtained through covert monitoring will only be used for the prevention or detection of criminal activity or equivalent malpractice. All other information collected in the course of covert monitoring will be deleted or destroyed unless it reveals information which the Club cannot reasonably be expected to ignore.

STAFF TRAINING

The Club will ensure that all CCTV operators and club officers handling CCTV images or recordings are trained in the operation and administration of the CCTV system and on the impact of the Data Protection Act 1998 with regard to that system.

IMPLEMENTATION

The Management Committee of Chelmsford Hockey Club are responsible for the implementation of and compliance with this policy and the operation of the CCTV system and they will conduct an annual review of the Club's use of CCTV. Any complaints or enquiries about the operation of the Club's CCTV system should be addressed to them via the club Secretary.
